Introduction

Quick Solutions to Common Errors in English is a reference book which has been written for the student and the general reader. It aims to tackle the basic questions about spelling, punctuation, grammar and word usage that the student and the general reader are likely to ask.

Throughout the book there are clear explanations, and exemplar sentences where they are needed. When it's helpful to draw attention to spelling rules and patterns, these are given so that the reader is further empowered to deal with hundreds of related words. The aim always has been to make the reader more confident and increasingly self-reliant.

This is a fast-track reference book. It is not a dictionary although, like a dictionary, it is arranged alphabetically. It concentrates on problem areas; it anticipates difficulties; it invites cross-references. By exploring punctuation, for example, and paragraphing, it goes far beyond a dictionary's terms of reference. It is not intended to replace a dictionary; it rather supplements it.

Once, in an evening class, one of my adult students said, 'If there's a right way to spell a word, I want to know it.' On another occasion, at the end of a punctuation session on possessive apostrophes, a college student said rather angrily, 'Why wasn't I told this years ago?'

This book has been written to answer all the questions that my students over the years have needed to ask. I hope all who now use it will have their questions answered also and enjoy the confidence and the mastery that this will bring.

How to use this book

For ease of reference, all the entries in this book have been listed alphabetically rather than being divided into separate spelling, usage, punctuation and grammar sections.

You will therefore find **hypocrisy** following **hyphens**; **paragraphing** following **paraffin**; **who or whom?** following **whiskey or whisky?**; and so on.

Want to check a spelling?

Cross-referencing will help you locate words with tricky initial letters.

aquaint

Wrong spelling. See **ACQUAINT**.

Plural words are given alongside singular nouns, with cross-referencing to relevant rules and patterns.

knife (singular)

knives (plural). See **PLURALS** (v).

There is also a general section on **plurals** and another on **foreign plurals**.

If it's the complication of adding an ending that is causing you trouble, you will find some words listed with a useful cross-reference.

dining or dinning?

dine + ing = dining (as in dining room)

din + ing = dinning (noise dinning in ears)

See **ADDING ENDINGS** (i) and (ii).

There are individual entries for confusing endings like **-able/-ible**; **-ance,-ant/-ence,-ent**; **-cal/-cle**; **-ise or -ize?** and for confusing beginnings like **ante-/anti-**; **for-/fore-**; **hyper-/hypo-**; **inter-/intra-** and many others.

Usage?

If you're hesitating between two words in a tricky pair (like **contagious or infectious?**; **disinterested or uninterested?**; **imply or infer?**; **irony or sarcasm?**), turn to whichever word is listed first alphabetically. There you will find a full explanation of the difference in meaning and usage. There will be a cross-reference from the word listed second alphabetically.

misplace	See DISPLACE OR MISPLACE? .
-----------------	------------------------------------

Punctuation?

The functions of the different punctuation marks are discussed under individual entries; **apostrophes** ('); **brackets** (round and square); **capital letters**; **colons** (:); **dashes** (-); **exclamation marks** (!); **full stops** (.); **hyphens** (-); **inverted commas/quotation marks/speech marks** (single " and double ""); **semicolons** (;); **and question marks** (?).

Additional entries include **commands**; **contractions**; **end stops**; and **indirect/reported speech**.

As well as the general entry, **contractions**, commonly used contractions are listed individually as the punctuation of these causes so much confusion.

isn't

Place the apostrophe carefully. (<i>not</i> is'nt)

Grammar?

Many grammatical queries can be listed individually or as a choice between two or three possibilities. Among these are: **as or like?**; **consist in or consist of?**; **different from/to/than**; **due to or owing to?**; **fewer or less?**; **I/me/myself**; **lay or lie?**; **passed or past?**; **shall or will?**; **should or would?**; **who or whom?**.

between you and I Incorrect. Write: between you and me. See PREPOSITIONS.
themselves Incorrect formation. See THEMSELVES.

At other times, however, some grammatical points have necessarily to be grouped under general technical headings which sound rather forbidding. (The entries themselves, I hope, will make all clear!)

These entries are too long to be quoted here. I suggest that you look them up to see whether they deal with areas that cause you problems:

comparative and superlative

double negatives

nouns

paragraphing

participles

possessive pronouns

prepositions

sequence of tenses

split infinitives

subjunctive

As well as using this book as a reference text (its unwritten subtitle is *A Friend at Your Elbow!*), I hope you will sometimes be tempted to browse and to follow up cross-references. Our language is a fascinating one and well repays careful attention.

There will come a time when you no longer need the guidance this reference book offers. That will be real success!

Appendices

At the end of the book there are three appendices for further reference:

Appendix A: Literary terms

Appendix B: Parts of speech

Appendix C: Planning, drafting and proofreading

A

abandon

abandoned, abandoning, abandonment (*not* -bb-)

abattoir

(*not* -bb-)

abbreviate

abbreviated, abbreviating, abbreviation (*not* -b-)

abbreviations

See CONTRACTIONS.

-able/-ible

Adjectives ending in -able or -ible can be difficult to spell because both endings sound identical. You'll always need to be on guard with these words and check each word individually when you are in doubt, but here are some useful guidelines:

- (i) Generally use -able when the companion word ends in -ation:

abominable, abomination
irritable, irritation

- (ii) Generally use -ible when the companion word ends in -ion:

comprehensible, comprehension
digestible, digestion

- (iii) Use -able after hard c and hard g:

practicable (c sounds like k)
navigable (hard g)

- (iv) Use -ible after soft c and soft g:

forcible (c sounds like s)
legible (g sounds like j)

See also ADDING ENDINGS (ii); SOFT C AND SOFT G.

abridgement/abridgment

Both spellings are correct. Use either but be consistent within one piece of writing.

abscess

This is a favourite word in spelling quizzes.
(*not* absess or abcess)

absence

absent (*not* absc-)

absolute

absolutely (*not* absoloute, absolututely)

absorb

absorption. Notice how b changes to p here.

abstract nouns

See NOUNS.

accept or except?

We **ACCEPT** your apology.

Everybody was there **EXCEPT** Stephen.

accessary or accessory?

If you want to preserve the traditional distinction in meaning between these two words, use **ACCESSARY** to refer to someone associated with a crime and **ACCESSORY** to refer to something that is added (a fashion accessory or car accessories). However, the distinction has now become blurred and it is perfectly acceptable to use one spelling to cover both meanings. Of the two, accessory is the more widely used, but both are correct.

accessible

(*not* -able)

accidentally

The adverb is formed by adding -ly to accidental.
(*not* accidently)

accommodation

This is a favourite word in spelling quizzes and is frequently seen misspelt on painted signs.

(*not* accomodation or accommadation)

accross

Wrong spelling. See ACROSS.

accumulate

(*not* -mm-)

achieve

achieved, achieving, achievement (*not* -ei-) See also

ADDING ENDINGS (ii.); EI/IE SPELLING RULE.

acknowledgement/acknowledgment

Both spellings are correct but be consistent within one piece of writing.

acquaint

acquainted (*not* aq-)

acquaintance

(*not* -ence)

acquiesce

acquiesced, acquiescing (*not* aq-)

acquiescence

(*not* -ance)

acquire

acquired, acquiring, acquisition (*not* aq-)

acreage

Note that there are three syllables here. (*not* acrage)

across

(*not* accross)

adapter or adaptor?

Traditional usage would distinguish between these two words and reserve -er for the person (an adapter

of novels, for instance) and -or for the piece of electrical equipment. However, the distinction has become very blurred and the two spellings are considered by many authorities to be interchangeable. Use either for both meanings but be consistent within a single piece of writing.

addendum (singular) addenda (plural)

See FOREIGN PLURALS.

adding endings

Usually endings (suffixes) can be added to base words without any complications. You just add them and that is that!

e.g. iron + ing	= ironing
steam + er	= steamer
list + less	= listless

However, there are four groups of words which need especial care. Fortunately, there are some straightforward rules which save your learning thousands of words individually.

(i) *The 1-1-1 rule*

This rule applies to:

words of	ONE syllable
ending with	ONE consonant
preceded by	ONE vowel.
e.g. drop, flat, sun, win	

When you add an ending beginning with a consonant to a 1-1-1 word, there is no change to the base word:

drop + let	= droplet
flat + ly	= flatly
win + some	= winsome

See CONSONANTS.

When you add an ending beginning with a vowel to a 1-1-1 word, you double the final letter of the base word:

drop + ed = dropped

flat + est = flattest

win + ing = winning

sun + *y = sunny

*y counts as a vowel when it sounds like i or e.

See **VOWELS**.

Treat qu as one letter:

quit + ing = quitting

quip + ed = quipped

Don't double final w and x. They would look very odd and so we have correctly:

tax + ing = taxing

paw + ed = pawed

(ii) *The magic -e rule*

This rule applies to all words ending with a silent -e.

e.g. hope, care, achieve, sincere, separate

When you add an ending beginning with a consonant, keep the -e:

hope + ful = hopeful

care + less = careless

sincere + ly = sincerely

separate + ly = separately

achieve + ment = achievement

When you add an ending beginning with a vowel, drop the -e:

hope + ing = hoping

care + er = carer

sincere + ity = sincerity

separate + ion = separation

achieve + ed = achieved

Do, however, keep the -e in words like singeing (different from singing) and dyeing (different

from dying) and whenever you need to keep the identity of the base word clear (e.g. shoeing, canoeing).

Do remember to keep the -e with soft c and soft g words. It's the e that keeps them soft (courageous, traceable). (See **SOFT C AND SOFT G.**)

Don't keep the -e with these eight exceptions to the rule: truly, duly, ninth, argument, wholly, awful, whilst, wisdom.

(iii) *-y rule*

This rule applies to all words ending in -y. Look at the letter before the -y in the base word.

It doesn't matter at all what kind of ending you are adding. When you add an ending to a word ending in a vowel + y, keep the y:

portray + ed	= portrayed
employ + ment	= employment

When you add an ending to a word ending in a consonant + y, change the y to i:

try + al	= trial
empty + er	= emptier
pity + less	= pitiless
lazy + ness	= laziness

Do keep the y when adding -ing. Two i's together would look very odd, despite our two words ski-ing and taxi-ing.

try + ing	= trying
empty + ing	= emptying

Don't apply the rule in these fourteen cases: daily, gaily, gaiety, laid, paid, said, slain, babyhood, shyly, shyness, dryness, slyness, wryly, wryness.

(iv) *The 2-1-1 rule*

This rule applies to:

words of	TWO syllables
ending with	ONE consonant
preceded by	ONE vowel.

With this rule, it all depends on which syllable of the word is stressed. The 2-1-1 words below are stressed on the first syllable, and both vowel and consonant endings are added without any complications:

gossip	gossiping
target	targeted
limit	limitless
eager	eagerness

But note that kidnap, outfit, worship, always double their final letter:

kidnapped, outfitter, worshipping

Take care with 2-1-1 words which are stressed on the second syllable. There is no change when you add a consonant ending:

forget + ful	= forgetful
equip + ment	= equipment

Double the final consonant of the base word when you add a vowel ending:

forget + ing	= forgetting
equip + ed	= equipped
forbid + en	= forbidden
begin + er	= beginner

This rule is really valuable but you must be aware of some exceptions:

- ◆ 2-1-1 words ending in -l seem to have a rule all of their own. Whether the stress is on the first or the second syllable, there is no change when

a consonant ending is added:

quarrel + some = quarrelsome
instal + ment = instalment

Double the -l when adding a vowel ending:

quarrel + ing = quarrelling
instal + ed = installed
excel + ent = excellent

- ◆ Notice how the change of stress in these words affects the spelling:

confer	conferred	conferring	conference
defer	deferred	deferring	deference
infer	inferred	inferring	inference
prefer	preferred	preferring	preference
refer	referred	referring	reference
transfer	transferred	transferring	transference

See also -ABLE/-IBLE; -ANCE,-ANT/-ENCE,-ENT; -CAL/-CLE; -FUL;-LY.

address

(*not* adr-)

adieu (singular) adieus or adieux (plural)

See FOREIGN PLURALS.

adrenalin/adrenaline

Both spellings are correct.

adress

Wrong spelling. See ADDRESS.

advantageous

advantage + ous

Keep the -e in this instance.

See SOFT C AND SOFT G.

adverse or averse?

These two words have different meanings.

The ferries were cancelled owing to **ADVERSE** weather conditions. (= unfavourable)

She is not **ADVERSE** to publicity. (= opposed)

advertisement

advertise + ment

See **ADDING ENDINGS** (ii).

advice or advise?

My **ADVICE** is to forget all about it. (noun = recommendation)

What would you **ADVISE** me to do? (verb = recommend)

adviser or advisor?

Adviser is the traditionally correct British spelling.

Advisor is more common in American English.

advisory

(*not* -ery)

aerial

Use the same spelling for the noun (a television **AERIAL**) and the adjective (an **AERIAL** photograph).

affect or effect?

Use these exemplar sentences as a guide:

Heavy drinking will **AFFECT** your liver. (verb)

The **EFFECT** on her health was immediate. (noun)

The new manager plans to **EFFECT** sweeping changes. (verb = to bring about)

afraid

(*not* affraid)

ageing or aging?

Both spellings are correct but many would prefer ageing as it keeps the identity of the base word (age) more easily recognised.

See **ADDING ENDINGS** (ii).

aggravate

Strictly speaking, aggravate means to make worse.

His rudeness **AGGRAVATED** an already explosive situation.

It is, however, widely used in the sense of to irritate or to annoy. Be aware that some authorities would regard this second usage as incorrect.

aggressive

(*not* agr-)

agree to/agree with

The choice of preposition alters the meaning of the verb:

I AGREED TO do what he advised.

I AGREED TO all the conditions.

I AGREED WITH all they said.

See **PREPOSITIONS**.

agreeable

(*not* agreeable)

agreement

For grammatical agreement, see **SINGULAR OR PLURAL?**.

agressive

Wrong spelling. See **AGGRESSIVE**.

alga (singular) **algae** (plural)

See **FOREIGN PLURALS**.

allege

(*not* -dge)

alley or ally?

An **ALLEY** is a little lane.

An **ALLY** is a friend.

alley (singular), alleys (plural)

ally (singular), allies (plural)

See **PLURALS** (iii).

all most or almost?

There is a difference in meaning. Use these exemplar sentences as a guide:

They were **ALL** (= everyone) **MOST** kind.

The child was **ALMOST** (= nearly) asleep.

allowed or aloud?

There is a difference in meaning. Use these exemplar sentences as a guide:

Are we **ALLOWED** (= permitted) to smoke in here?

I was just thinking **ALoud** (= out loud).

all ready or already?

There is a difference in meaning. Use these exemplar sentences as a guide:

We are **ALL** (= everyone) **READY**.

It is **ALL** (= everything) **READY**.

She was **ALREADY** dead (= by then).

all right or alright?

Traditional usage would consider **ALL RIGHT** to be correct and **ALRIGHT** to be incorrect. However, the use of 'alright' is so widespread that some would see it as acceptable although the majority of educated users would take care to avoid it.

all so or also?

There is a difference in meaning. Use these exemplar sentences as a guide:

You are **ALL** (= everyone) **SO** kind.

You are **ALSO** (= in addition) generous.

all together or altogether?

There is a difference in meaning. Use these exemplar sentences as a guide:

They were **ALL** (= everybody) huddled **TOGETHER** for warmth.

His situation is **ALTOGETHER** (= totally) different from yours.

allude or elude?

There is a difference in meaning.

ALLUDE means to refer to indirectly.

ELUDE means to evade capture or recall.

allusion, delusion or illusion?

There is a difference in meaning.

An **ALLUSION** is an indirect reference.

A **DELUSION** is a false belief (often associated with a mental disorder).

An **ILLUSION** is a deceptive appearance.

all ways or always?

There is a difference in meaning.

These three routes are **ALL** (= each of them) **WAYS** into town.

She **ALWAYS** (= at all times) tells the truth.

almost

See **ALL MOST OR ALMOST?**.

a lot

Write as two words, not as one. Bear in mind that this construction is slang and not to be used in a formal context.

aloud

See **ALLOWED OR ALOUD?**.

already

See **ALL READY OR ALREADY?**.

altar or alter?

There is a difference in meaning.

The bride and groom stood solemnly before the **ALTAR**.

Do you wish to **ALTER** (= change) the arrangements?

alternate or alternative?

We visit our grandparents on **ALTERNATE** Saturdays. (= every other Saturday)

I **ALTERNATE** between hope and despair. (= have each mood in turn)

An **ALTERNATIVE** plan would be to go by boat. (= another possibility)

The **ALTERNATIVES** are simple: work or go hungry. (= two choices)

alternatives

Strictly speaking, the choice can be between only two alternatives (one choice or the other).

However, the word is frequently used more loosely and this precise definition is becoming lost.

altogether

See **ALL TOGETHER OR ALTOGETHER?**.

Alzheimer's disease

(*not* Alze-)

amateur

(*not* -mm-)

ambiguity

Always try to anticipate any possible confusion on the part of your reader. Check that you have made your meaning absolutely clear.

- (i) Bear in mind that pronouns can be very vague. Consider this sentence:

My brother told his friend that **HE** had won first prize in the local photographic exhibition.

Who is 'he', my brother or his friend?

Rewrite more clearly:

- (a) My brother congratulated his friend on winning first prize in the local photographic exhibition.
- (b) My brother, delighted to have won first prize in the local photographic exhibition, told his friend.

The other possibility is rather clumsy but is otherwise clear:

- (c) My brother told his friend that he (his friend) had won first prize.
 - (d) My brother told his friend that he (my brother) had won first prize.
- (ii) Position the adverb **ONLY** with great care. It will refer to the word nearest to it, usually the word following. This may not be the meaning you intended. See how crucial to the meaning the position of 'only' can be:

ONLY Sean eats fish on Fridays.

(= No one else but Sean eats fish on Fridays.)

Sean **ONLY** eats fish on Fridays.

(= Sean does nothing else to the fish on Fridays but eat it. He doesn't buy it, cook it, look at it, smell it...)

Sean eats **ONLY** fish on Fridays.

(= Sean eats nothing but fish on Fridays.)

Sean eats fish **ONLY** on Fridays.

Sean eats fish on Fridays **ONLY**.

(= Sean eats fish on this one day in the week and never on any other.)

- (iii) Take care with the positioning of **BADLY**.

This room needs cleaning **BADLY**.

Does it? Or does it not need cleaning well?
Rewrite like this:

This room **BADLY** needs cleaning.

- (iv) Beware of causing initial bewilderment by not introducing a comma to indicate a pause.

The shabby little riverside café was empty and full of wasps and flies.

Empty and full?

The shabby little riverside café was empty, and full of wasps and flies.

See **COMMAS** (ix).

- (v) Avoid the danger of writing nonsense!

DRIVING slowly along the road, **THE CASTLE** dominated the landscape.

The castle is driving?

Rewrite:

As we drove slowly along the road, we saw how the castle dominated the landscape.

COOKED slowly, the **FAMILY** will enjoy the cheaper cuts of meat.

Rewrite:

If the cheaper cuts of meat are cooked slowly, the family will enjoy them.

See **PARTICIPLES**.

- (vi) Make sure the descriptive details describe the right noun!

For sale: 1995 Peugeot 205 – one owner with power-assisted steering.

Rewrite:

For sale: 1995 Peugeot 205 with power-assisted steering – one owner.

amend or emend?

Both words mean 'to make changes in order to improve'. Use **AMEND** or **EMEND** when referring to the correction of written or printed text.

Use **AMEND** in a wider context such as **AMENDING** the law or **AMENDING** behaviour.

ammount

Wrong spelling. See **AMOUNT**.

among

(*not* amoung)

among/amongst

Either form can be used.

among or between?

Use **BETWEEN** when something is shared by two people. Use **AMONG** when it is shared by three or more.

Share the sweets **BETWEEN** the two of you.

Share the sweets **AMONG** yourselves.

However, **BETWEEN** is used with numbers larger than two when it means an exact geographical location or when it refers to relationships.

Sardinia lies **BETWEEN** Spain, Algeria, Corsica and Italy.

It will take a long time before the rift **BETWEEN** the five main parties heals.

amoral or immoral?

There is a difference in meaning.

AMORAL means not being governed by moral laws, acting outside them.

(note -m-)

IMMORAL means breaking the moral laws.

(note -mm-)

amoung

Wrong spelling. See **AMONG**.

amount

(*not* ammount)

amount or number?

AMOUNT is used with non-count nouns:

a small **AMOUNT** of sugar; a surprising **AMOUNT** of gossip.

NUMBER is used with plural nouns: a **NUMBER** of mistakes; a **NUMBER** of reasons.

analyse

(*not* -yze as in American English)

analysis (singular) analyses (plural)

See **FOREIGN PLURALS**.

-ance, -ant/-ence, -ent

Words with these endings are difficult to spell and you'll always need to be on your guard with them. Check each word individually when in doubt, but here are some useful guidelines:

- (i) People are generally -ant: attendant, lieutenant, occupant, sergeant, tenant (but there are exceptions like superintendent, president, resident . . .).
- (ii) Use -ance, -ant, where the companion word ends in -ation: dominance, dominant, domination; variance, variant, variation.
- (iii) Use -ence, -ent after qu: consequence, consequent; eloquence, eloquent.
- (iv) Use -ance, -ant after hard c or hard g: significance, significant (c sounds like k); elegance, elegant (hard g).

- (v) Use -ence, -ent after soft c or soft g: innocence, innocent (c sounds like s); intelligent, intelligence (g sounds like j).

See **SOFT C AND SOFT G**.

and/but

Many of us have been taught never to begin a sentence with **AND** or **BUT**. Generally speaking this is good advice. Both words are conjunctions and will therefore be busy joining words within the sentence:

I should love to come **AND** I look forward to the party very much.

They wanted to come **BUT** sadly they had to visit a friend in hospital some miles away.

However, there are some occasions when you may need the extra emphasis that starting a new sentence with **AND** or **BUT** would give. If you have a good reason to break the rules, do so!

anecdote or antidote?

An **ANECDOTE** is a short, amusing account of something that has happened.

An **ANTIDOTE** is a medicine taken to counteract a poison.

angsiety

Wrong spelling. See **ANXIETY**.

angsiuous

Wrong spelling. See **ANXIOUS**.

annex or annexe?

To **ANNEX** is to take possession of a country or part of a country.

An **ANNEX** is another word for an appendix in an official document.

An **ANNEXE** is a building added to the main building.

annoint

Wrong spelling. See ANOINT.

announce

announced, announcing, announcer, announcement
(*not* -n-)

annoy

annoyed, annoying, annoyance (*not* anoy or annoied)

annul

ANTE- means before.

antenatal = before birth

ANTI- means against.

antifreeze = against freezing

antecedent

This means earlier in time or an ancestor. (*not* anti-)
See ANTE-/ANTI-.

antediluvian

This means very old-fashioned and primitive, literally
'before the flood of Noah'. (*not* anti-)
See ANTE-/ANTI-.

antenna

This word has two plurals, each used in a different
sense:

Use ANTENNAE to refer to insects.

Use **ANTENNAS** to refer to television aerials.

See **FOREIGN PLURALS**.

anticlimax

(*not* ante-)

See **ANTE-/ANTI-**.

antidote

See **ANECDOTE OR ANTIDOTE?**.

apologise/apologize

Both spellings are correct. (*not* -pp)

apology

apologies (plural)

See **PLURALS** (iii).

apon

Wrong spelling. See **UPON**.

apostrophes

(i) Apostrophes can be used to show that letters have been omitted:

◆ *in contractions*

you've

won't

◆ *in poetry*
o'er vales and hills
where'er you walk

◆ *in dialect*
'Ere's 'Arry.

◆ *in retail*
pick 'n' mix
salt 'n' vinegar

- (ii) Apostrophes can be used to show ownership.
Follow these simple guidelines and you'll never
put the apostrophe in the wrong place.

Singular nouns or 'owners'

The tail of the dog

The dog's tail

Who 'owns' the tail?

the dog

Put the apostrophe after
the owner.

the dog'

Add -s.

the dog's

Add what is 'owned'.

the dog's tail

The smile of the princess

The princess's smile

Who 'owns' the smile?

the princess

Put the apostrophe after
the owner.

the princess'

Add -s.

the princess's

Add what is 'owned'.

the princess's smile

With proper names ending in -s, you have a choice,
depending upon how the name is pronounced.

Keats' poetry or Keats's poetry

But St James's Square, London, SW1

St James' (two syllables)

St James's (three syllables)

Plural nouns or 'owners'

Don't worry about whether you use 's or s' in the plural. It will sort itself out.

The tails of the dogs

The dogs' tails

Who 'owns' the tails?

the dogs

Put the apostrophe after

the owners.

the dogs'

Add -s if there isn't one.

(no need here)

Add what is 'owned'.

the dogs' tails

The laughter of the women

The women's laughter

Who 'owns' the laughter?

the women

Put the apostrophe

after the owners.

the women'

Add -s if there isn't one.

the women's

Add what is 'owned'.

the women's laughter

And so, when reading, you will be able to distinguish singular and plural 'owners'.

The princess's suitors.

The princesses' suitors.

The 'owner' is the word before the apostrophe.

(iii) Apostrophes are also used in condensed expressions of time.

The work of a moment.

A moment's work.

The work of three years.

Three years' work.

If you follow the guidelines in (ii) above, you will never make a mistake.

appal

appalled, appalling (*not* -aul-)

appearance

(*not* -ence)

appendix

This word has two plurals, each used in a different sense.

Use **APPENDIXES** in an anatomical sense.

Use **APPENDICES** when referring to supplementary sections in books or formal documents.

See also **FOREIGN PLURALS**.

appologise/-ize

Wrong spelling. See **APOLOGISE/APOLOGIZE**.

appology

Wrong spelling. See **APOLOGY**.

appraise or apprise?

To **APPRAISE** is to evaluate.

To **APPRISE** is to inform.

appreciate

There are three distinct meanings of this word.

I **APPRECIATE** your kindness (= recognise gratefully).

I **APPRECIATE** that you have had a difficult time lately (= understand).

My cottage **HAS APPRECIATED** in value already (= increased).

Some people would choose to avoid the second use above (understand, realise) but the verb is now widely used in this sense and this has become acceptable.

artist or artiste?

Traditionally, an **ARTIST** is skilled in one or more of the fine arts (painting, for example, or sculpture).

Traditionally, the term **ARTISTE** is reserved for a performer or entertainer (a music-hall **ARTISTE**).

However, **ARTIST** is now being used to cover both meanings in the sense of 'skilled practitioner', and **ARTISTE** is becoming redundant.

as or like?

Use these exemplar sentences as a guide:

You look **AS** if you have seen a ghost.

You look **AS** though you have seen a ghost.

AS I expected, he's missed the train.

You look **LIKE** your mother.

She has **BORNE** five children.

He has **BORNE** a heavy burden of guilt all his life.

borrow or lend?

May I **BORROW** your pen? (= use your pen temporarily)

Please **LEND** me your pen. (= pass it to me and allow me to use it)

both... and

Take care with the positioning of each half of this paired construction. Each must introduce grammatically similar things:

He is **BOTH** clever **AND** hardworking.

(*not*: He both is clever and hardworking!)

He **BOTH** paints **AND** sculpts.

He bought **BOTH** the gardening tools **AND** the DIY kit.

Notice, however, the ambiguity in the last example. It could mean that there were just two gardening tools and he bought both of them. In the case of possible confusion, always replace:

He bought the gardening tools and also the DIY kit.

He bought the two gardening tools and also the DIY kit.

He bought both of the gardening tools and also the DIY kit.

bought or brought?

BOUGHT is the past tense of to buy.

She **BOUGHT** eggs, bacon and bread.

BROUGHT is the past tense of to bring.

They **BROUGHT** their books home.

(*not* -ey)

See **ADDING ENDINGS** (ii).

brackets

Round brackets enclose additional information which the writer wants to keep separate from the main body of the sentence.

Jane Austen (born in 1775) died in Winchester.
My neighbour (have you met her?) has won
£250,000.

Notice how sentences in brackets are not fully punctuated.

They don't begin with a capital letter or have a full stop at the end if they occur within another sentence as in the example above. They do, however, have a question mark or an exclamation mark, if appropriate.

Square brackets indicate that the material has been added to the original by another writer:

When I [Hilaire Belloc] am dead, I hope it may be said:

'His sins were scarlet, but his books were read.'

breath or breathe?

BREATH is the noun, and rhymes with 'death'.

He called for help with his dying **BREATH**.

capital letters

Use a capital letter in these circumstances:

- ◆ to begin a sentence:

My father will be fifty tomorrow.

- ◆ to begin sentences of direct speech:

‘You will be sorry for this in the morning,’ she said.

She said, ‘You will be sorry for this in the morning. You never learn.’

- ◆ for the pronoun ‘I’ wherever it comes in the sentence:

You know that I have no money.

- ◆ for all proper nouns – names of:

people (Mary Browne)

countries (Malta)

languages (French)

religious festivals (Easter, Diwali)

firms (Express Cleaners)

organisations (the British Broadcasting Corporation)

historical periods (the Renaissance)
(the Neolithic Period)

days of the week (Monday)

months of the year (September)

but not usually the seasons

Note these adjectives derived from proper nouns also have a capital letter:

a Jewish festival; a German poet

However, the capital is dropped when the connection with the proper noun becomes lost:

venetian blinds, french windows

Note also that titles are capitalised only when part of a proper noun:

Bishop Christopher Budd, otherwise the bishop

Aunt Gladys, otherwise my aunt

Captain Llewellyn, otherwise the captain

- ◆ to begin lines of poetry (although some poets like e.e. cummings dispense with this convention)
- ◆ to mark the first word and the subsequent key words in titles:

The Taming of the Shrew
An Old Wives' Tale

- ◆ for emphasis:
- ◆ for some acronyms and initialisms:

NATO
UNESCO
CAFOD
OXFAM
PTO
RSVP

Note that some acronyms have now become words in their own right and are no longer written in capitals: laser, sauna, radar.

Note also that some initialisms are usually written in lower case: i.e., e.g., c/o, wpm.

- ◆ for the Deity as a mark of respect and for sacred books:

God, Jesus Christ, the Holy Spirit, the Almighty,
Allah, Jehovah, Yahweh
the Bible, the Koran, the Vedas

- ◆ to begin each word in an address:

Mrs Anna Sendall
10 Furze Crescent
ALPHINGTON
Hants PD6 9EF

- ◆ for the salutation in a letter (first word and key words only) and for the first letter of the complimentary close:

Dear Sir

Dear Mrs Hughes

My dear niece

Yours faithfully

Yours sincerely

With much love

With best wishes

A **COLONEL** is a senior officer.

A **KERNEL** is the inner part of a nut.

colons

- (i) Colons can introduce a list:

Get your ingredients together:
flour, sugar, dried fruit, butter and milk.

Note that a summing-up word should always precede the colon (here 'ingredients').

- (ii) Colons can precede an explanation or amplification of what has gone before:

The teacher was elated: at last the pupils were gaining in confidence.

Note that what precedes the colon must always be able to stand on its own grammatically. It must be a sentence in its own right.

- (iii) Colons can introduce dialogue in a play:

Henry (with some embarrassment): It's all my fault.

- (iv) Colons can be used instead of a comma to introduce direct speech:

Henry said, with some embarrassment: 'It's all my fault.'

- (v) Colons can introduce quotations:

Donne closes the poem with the moving tribute:
'Thy firmness makes my circle just
And makes me end where I began.'

- (vi) Colons can introduce examples as in this reference book.

See **ADDING ENDINGS** (ii).

comission

Wrong spelling. See **COMMISSION**.

commands

- (i) Direct commands, if expressed emphatically, require an exclamation mark:

Stop, thief!

Put your hands up!

Stop talking!

If expressed calmly and conversationally, however, a full stop is sufficient:

Just wait there a moment and I'll be with you.

Tell me your story once again.

- (ii) Reported commands (indirect commands) never need an exclamation mark because, when they are reported, they become statements.

He ordered the thief to stop.

She told him to put his hands up.

The teacher yelled at the class to stop talking.

commas

Commas are so widely misused that it is worth discussing their function in some detail. First, let us make it very clear when commas *cannot* be used.

- (a) A comma should never divide a subject from its verb. The two go together:

My parents, had very strict views. ✗

My parents had very strict views. ✓

Take extra care with compound subjects:

The grandparents, the parents, and the children, were in some ways to blame. ✗

The grandparents, the parents, and the children were in some ways to blame. ✓

- (b) Commas should never be used in an attempt to string sentences together. Sentences must be either properly joined (and commas don't have this function) or clearly separated by full stops, question marks or exclamation marks.

Commas have certain very specific jobs to do within a sentence. Let us look at each in turn:

- (i) Commas separate items in a list:

I bought apples, pears, and grapes.

She washed up, made the beds, and had breakfast.

The novel is funny, touching, and beautifully written.

The final comma before 'and' in a list is optional. However, use it to avoid any ambiguity. See (ix) below.

- (ii) Commas are used to separate terms of address from the rest of the sentence:

Sheila, how nice to see you!

Can I help you, madam?

I apologise, ladies and gentlemen, for this delay.

Note that a pair of commas is needed in the last example above because the term of address

occurs mid-sentence. It is a very common error to omit one of the commas.

- (iii) Commas are used to separate interjections, asides and sentence tags like *isn't it?* *don't you?* *haven't you?*. You'll notice in the examples below that all these additions could be removed and these sentences would still be grammatically sound:

My mother, despite her good intentions, soon stopped going to the gym.

Of course, I'll help you when I can.

You've met Tom, haven't you?

- (iv) Commas are used to mark off phrases in apposition:

Prince Charles, the future king, has an older sister.

The phrase 'the future king' is another way of referring to 'Prince Charles' and is punctuated just like an aside.

- (v) A comma separates any material that precedes it from the main part of the sentence:

Although she admired him, she would never go out with him.

If you want to read the full story, buy *The Sunday Times*.

Note that if the sentences are reversed so that the main part of the sentence comes first, the comma becomes optional.

- (vi) Commas mark off participles and participial phrases, whenever they come in the sentence:

Laughing gaily, she ran out of the room.

He flung himself on the sofa, overcome with remorse.

The children, whispering excitedly, crowded

through the door.

For a definition of participles see **PARTICIPLES**.

- (vii) Commas mark off some adjectival clauses. Don't worry too much about the grammatical terminology here. You'll be able to decide whether you need to mark them off in your own work by matching them against these examples.

Can you see the difference in meaning that a pair of commas makes here? Read the two sentences aloud, pausing where the commas indicate that you should pause in the first sentence, and the two different meanings should become clear:

The firemen, who wore protective clothing, were uninjured. (= nobody injured)

The firemen who wore protective clothing were uninjured. (but those who didn't wear it...)

- (viii) Commas are used to mark a pause at a suitable point in a long sentence. This will be very much a question of style. Read your own work carefully and decide exactly how you want it to be read.
- (ix) Commas are sometimes needed to clarify meaning. In the examples below, be aware how the reader could initially make an inappropriate connection:
- She reversed the car into the main road and my brother waved goodbye.
- She reversed the car into the main road and my brother??
- She reversed the car into the main road, and my brother waved goodbye.

In the skies above the stars glittered palely.
In the skies above the stars??
In the skies above, the stars glittered palely.

Notice how the comma can sometimes be essential with 'and' in a list:

We shopped at Moores, Browns, SuperValu, Marks and Spencer and Leonards.

Is the fourth shop called Marks, or Marks and Spencer?

Is the fifth shop called Leonards, or Spencer and Leonards?

A comma makes all clear:

We shopped at Moores, Browns, SuperValu, Marks and Spencer, and Leonards.

comparative and superlative

- (i) Use the comparative form of adjectives and adverbs when comparing two:

John is **TALLER** than Tom.

John works **MORE ENERGETICALLY** than Tom.

Use the superlative form when comparing three or more:

John is the **TALLEST** of all the engineers.

John works **THE MOST ENERGETICALLY** of all the engineers.

- (ii) There are two ways of forming the comparative and superlative of adjectives:

- (a) Add -er and -est to short adjectives:

tall	taller	tallest
happy	happier	happiest

- (b) Use more and most with longer adjectives:

dangerous	more dangerous	most dangerous
successful	more successful	most successful

The comparative and superlative forms of adverbs are formed in exactly the same way:

- (c) Short adverbs add -er and -est.

You run **FASTER** than I do.

He runs the **FASTEST** of us all.

- (d) Use more and most with longer adverbs.

Nikki works **MORE CONSCIENTIOUSLY** than Sarah.

Niamh works **THE MOST CONSCIENTIOUSLY** of them all.

- (iii) There are three irregular adjectives:

good	better	best
bad	worse	worst
many	more	most

There are four irregular adverbs:

well	better	best
badly	worse	worst
much	more	most
little	less	least

- (iv) A very common error is to mix the two methods of forming the comparative and the superlative:

more simpler ✗ simpler ✓
 most easiest ✗ easiest ✓

- (v) Another pitfall is to try to form the comparative and superlative of absolute words like perfect, unique, excellent, complete, ideal. Something is either perfect or it isn't. It can't be more perfect or less perfect, most perfect or least perfect.

compare to/compare with

Both constructions are acceptable but many people still prefer to use 'compare with'.

comparitive

Wrong spelling. See **COMPARATIVE**.

competition

competitive, competitively

complacent or complaisant?

COMPLACENT = smug, self-satisfied

COMPLAISANT = obliging, willing to comply

compleatly

Wrong spelling. See **COMPLETELY**.

complement or compliment?

COMPLEMENT = that which completes

Half the ship's **COMPLEMENT** were recruited in Norway.

To **COMPLEMENT** = to go well with something

Her outfit was **COMPLEMENTED** by well-chosen accessories.

COMPLIMENT = praise, flattering remarks

To **COMPLIMENT** = to praise

complementary or complimentary?

Use **COMPLEMENTARY** in the sense of completing a whole:

COMPLEMENTARY medicine

COMPLEMENTARY jobs

Use **COMPLIMENTARY** in two senses:

(a) flattering

(b) free of charge

COMPLIMENTARY remarks

COMPLIMENTARY tickets

completely

complete + ly (*not* completly, completley or compleatly)

See **ADDING ENDINGS** (ii).

complex or complicated?

Both words mean 'made up of many different intricate and confusing aspects'. However, use

COMPLEX when you mean 'intricate', and

COMPLICATED when you mean 'difficult to understand'.

compliment

See **COMPLEMENT OR COMPLIMENT?**.

compose/comprise

The report **IS COMPOSED OF** ten sections. (= is made up of)

The report **COMPRISES** ten sections. (= contains)

Never use the construction 'is comprised of'. It is always incorrect grammatically.

concede

conceive

conceived, conceiving, conceivable

See EI/IE SPELLING RULE.

concise

confer

conferred, conferring, conference

See ADDING ENDINGS (iv).

confidant, confidante or confident?

A **CONFIDANT** (male or female) or a **CONFIDANTE** (female only) is someone to whom one tells one's secrets 'in confidence'.

CONFIDENT means assured.

connection or connexion?

Both spellings are correct, but the first one is more commonly used.

connoisseur

Used for both men and women.

conscientious

consist in or consist of?

For Belloc, happiness **CONSISTED IN** 'laughter and the love of friends'. (consist in = have as its essence)

Lunch **CONSISTED OF** bread, cheese and fruit.

consistent

(*not* -ant)

consonant

There are 21 consonants in the alphabet, all the letters except for the vowels:

bcd fghijklmnpqrstvwxyz

Note, however, that y can be both a vowel and a consonant:

y is a consonant when it begins a word or a syllable (yolk, beyond);

y is a vowel when it sounds like i or e (sly, baby).

contagious or infectious?

Both refer to diseases passed to others.

Strictly speaking, **CONTAGIOUS** means passed by bodily contact, and **INFECTIOUS** means passed by means of air or water.

Used figuratively, the terms are interchangeable:

INFECTIOUS laughter, **CONTAGIOUS** enthusiasm.

contemporary

(*not* contemporary, as often mispronounced)

Nowadays, this word is used in two senses:

- (a) happening or living at the same time (in the past)
- (b) modern, current

Be aware of possible ambiguity if both these meanings are possible in a given context:

Hamlet is being performed in contemporary dress.
(sixteenth-century or modern?)

contemptible or contemptuous

A person or an action worthy of contempt is **CONTEMPTIBLE**.

A person who shows contempt is **CONTEMPTUOUS**.

continual

continually

continual or continuous?

CONTINUAL means frequently repeated, occurring with short breaks only.

CONTINUOUS means uninterrupted.

contractions

Take care when placing the apostrophe in contractions. It is placed where the letter has been omitted and not where the two words are joined. These happen to coincide in some contractions:

I'd (I would, I had)
they aren't (they are not)
it isn't (it is not)
you hadn't (you had not)
you wouldn't (you would not)
she won't (she will not)
we haven't (we have not)
I shan't (I shall not)

It was common in Jane Austen's time to use two apostrophes in shan't (sha'n't) to show that two sets of letters had been omitted but this is no longer correct today.

control

controlled, controlling

controller

(*not* -or)

convenience

(*not* -ance)

convenient

conveniently (*not* convien-)

cord

corporal punishment

See CAPITAL OR CORPORAL PUNISHMENT?.

correspond

(*not* -r-)

correspondence

(*not* -ance)

correspondent or co-respondent?

A **CORRESPONDENT** is someone who writes letters.

A **CO-RESPONDENT** is cited in divorce proceedings.

could of

This is incorrect and arises from an attempt to write down what is heard. Write 'could've' in informal contexts and 'could have' in formal ones.

I **COULD'VE** given you a lift.

I **COULD HAVE** given you a lift.

Beware also: should of/would of/must of/might of.

All are incorrect forms.

couldn't

See **CONTRACTIONS**.

council or counsel?

A **COUNCIL** is a board of elected representatives.

COUNSEL is advice, also the term used for a barrister representing a client in court.

councillor or counsellor?

A **COUNCILLOR** is an elected representative.

A **COUNSELLOR** is one who gives professional guidance, such as a study **COUNSELLOR**, a marriage **COUNSELLOR**, a debt **COUNSELLOR**.

counterfeit

This is one of the few exceptions to the IE/EI spelling rule.

See **IE/EI SPELLING RULE**.

courageous

(*not* -gous)

See **SOFT C AND SOFT G**.

course

See **COARSE OR COURSE?**.

courteous

See **ADDING ENDINGS** (iii).

dairy or diary?

We buy our cream at a local **DAIRY**.

Kate writes in her **DIARY** every day.

dangling participles

See **PARTICIPLES**.

dashes

Dashes are used widely in informal notes and letters.

- (i) A dash can be used to attach an afterthought:

I should love to come – that's if I can get the time off.

- (ii) A dash can replace a colon before a list in informal writing:

The thieves took everything – video, television, cassettes, computer, camera, the lot.

- (iii) A dash can precede a summary:

Video, television, cassettes, computer, camera – the thieves took the lot.

- (iv) A pair of dashes can be used like a pair of commas or a pair of brackets around a parenthesis:

Geraldine is – as you know – very shy with strangers.

- (v) A dash can mark a pause before the climax is reached:

There he was at the foot of the stairs – dead.

(vi) Dashes can indicate hesitation in speech:

I – er – don't – um – know what – what to say.

(vii) Dashes can indicate missing letters or even missing words where propriety or discretion require it:

c – – – l (ship of the desert)

Susan L— comes from Exeter.

He swore softly, '—— it'.

data (plural) **datum** (singular)

Strictly speaking, **DATA** should be used with a plural verb:

The **DATA** have been collected by research students.

You will, however, increasingly see **DATA** used with a singular verb and this use has now become acceptable.

The **DATA** has been collected by research students.

dates

See **NUMBERS** for a discussion of how to set out dates.

deceased or diseased?

DECEASED means dead.

DISEASED means affected by illness or infection.

deceit

(*not* -ie)

See **EI/IE SPELLING RULE**.

deceive

Wrong spelling. See DIESEL.

delapidated

Wrong spelling. See DILAPIDATED.

delusion

See **ALLUSION, DELUSION OR ILLUSION?**.

denouement/dénouement

Both spellings are correct.

dependant or dependent?

The adjective (meaning reliant) is always **-ent**.

She is a widow with five **DEPENDENT** children.

I am absolutely **DEPENDENT** on a pension.

The noun (meaning someone who is dependent) has traditionally been spelt **-ant**. However, the American practice of writing either **-ant** or **-ent** for the noun has now spread here. Either spelling is now considered correct for the noun but be aware that some conservative readers would consider this slipshod.

She has five **DEPENDANTS/DEPENDENTS**.

descent

See **DECENT OR DESCENT?**.

describe

differcult

Wrong spelling. See **DIFFICULT**.

difference

(*not* -ance)

different

(*not* -ant)

different from/to/than

'Different from' and 'different to' are now both

considered acceptable forms.

My tastes are **DIFFERENT FROM** yours.

My tastes are **DIFFERENT TO** yours.

Conservative users would, however, much prefer the preposition 'from' and this is widely used in formal contexts.

'Different than' is acceptable in American English but is not yet fully acceptable in British English.

difficult

(*not* differcult, *not* difficalt)

dilapidated

(*not* delapidated)

dilemma

This word is often used loosely to mean 'a problem'. Strictly speaking it means a difficult choice between two possibilities.

dinghy or dingy?

A **DINGHY** is a boat (plural – dinghies).

See **PLURALS** (iii).

DINGY means dull and drab.

dingo (singular) dingoes or dingos (plural)

disinterested or uninterested?

Careful users would wish to preserve a distinction in meaning between these two words. Use the word **DISINTERESTED** to mean 'impartial, unselfish, acting for the good of others and not for yourself'.

My motives are entirely **DISINTERESTED**; it is justice I am seeking.

Use **UNINTERESTED** to mean 'bored'.

His teachers say he is reluctant to participate and is clearly **UNINTERESTED** in any activities the school has to offer.

Originally, **DISINTERESTED** was used in this sense (= having no interest in, apathetic), and it is interesting that this meaning is being revived in popular speech.

Avoid this use in formal contexts, however, for it is widely perceived as being incorrect.

disiple

Wrong spelling. See **DISCIPLE**.

disk

See **DISC OR DISK?**.

displace or misplace?

To displace is to move someone or something from its usual place:

a **DISPLACED** hip; a **DISPLACED** person

To misplace something is to put it in the wrong place (and possibly forget where it is):

a **MISPLACED** apostrophe; **MISPLACED** kindness

dissappear

Wrong spelling. See **DISAPPEAR**.

dissappoint

Wrong spelling. See **DISAPPOINT**.

dissapprove

divers or diverse

The first is rarely used nowadays except jokingly or in mistake for the second.

DIVERS means 'several', 'of varying types': **DIVERS** reference books.

DIVERSE means 'very different': **DIVERSE** opinions,

DIVERSE interests.

does or dose?

DOES he take sugar? He **DOES**. (pronounced 'duz')
Take a **DOSE** of cough mixture every three hours.

See **CONTRACTIONS**.

dose

See **DOES OR DOSE?**.

double meaning

See **AMBIGUITY**.

double negatives

The effect of two negatives is to cancel each other out. This is sometimes done deliberately and can be effective:

I am not ungenerous. (= I am very generous.)

He is not unintelligent. (= He is quite intelligent.)

Frequently, however, it is not intentional and the writer ends up saying the opposite of what is meant:

I haven't had no tea. (= I have had tea.)

You don't know nothing. (= You know something.)

Be particularly careful with 'barely', 'scarcely', 'hardly'. These have a negative force.

I wasn't **SCARCELY** awake when you rang. (= I was very awake.)

Be careful too with constructions like this:

I wouldn't be surprised if he didn't come.

Say either: I wouldn't be surprised if he
came.

or: I would be surprised if he
didn't come.

Sometimes writers put so many negatives in a sentence that the meaning becomes too complicated to unravel:

Mr Brown denied vehemently that it was unlikely that no one would come to the concert.

Does Mr Brown think that the concert will be popular or not?

Rewrite as either:

Mr Brown was certain the concert would be well attended.

Or: Mr Brown feared that no one would come to the concert.

doubling rule

See **ADDING ENDINGS** (i) and (iv).

doubt

(*not* dout)

The word is derived from the Latin word *dubitare*, to doubt. It may help you to remember that the silent b is there.

draft or draught?

A **DRAFT** is a first or subsequent attempt at a piece of written work before it is finished.

A **DRAUGHT** is a current of cool air in a room.

One also refers to a **DRAUGHT** of ale, a game of **DRAUGHTS** and a boat having a shallow **DRAUGHT**.

drawers or draws?

DRAWS is a verb.

She **DRAWS** very well for a young child.

DRAWERS is a noun.

The **DRAWERS** of the sideboard are very stiff.

dreamed/dreamt

Both spellings are correct.

drier or dryer?

DRIER is generally used for the comparative form (**DRIER** = more dry).

DRYER is generally used for a drying machine (hair **DRYER**, clothes **DRYER**).

However, both spellings are interchangeable.

drunkenness

drunken + ness

dryness

(exception to the -y rule)

See **ADDING ENDINGS** (iii).

dual or duel?

DUAL means two (e.g. **DUAL** controls, **DUAL** carriageway).

DUEL means fight or contest.

duchess

(*not* dutchess)

due to/owing to

Strictly speaking, 'due to' should refer to a noun:

His *absence* was **DUE TO** sickness. (noun)

The *delay* was **DUE TO** leaves on the line. (noun)

'Owing to', strictly speaking, should refer to a verb:

The march *was cancelled* **OWING TO** the storm.
(verb)

OWING TO an earlier injury, he *limped* badly.
(verb)

However, in recent years, the use of 'due to' where traditionally 'owing to' would be required has become widespread. Nevertheless, some careful writers continue to preserve the distinction and you may wish to do so too in a formal context.

duel

See **DUAL OR DUEL?**.

duly

(*not* duely)

This is an exception to the magic -e rule.

See **ADDING ENDINGS** (ii).

dutchess

Wrong spelling. See **DUCHESS**.

dwelled/dwelt

Both spellings are correct.

dyeing or dying?

DYEING comes from the verb to dye.

She was **DYEING** all her vests green.

DYING comes from the verb to die.

She cursed him with her **DYING** breath.

either

(*not* -ie-) An exception to the EI/IE SPELLING RULE.

either...or

- (i) Take care with singular and plural verbs.

Use these exemplar sentences as a guide:

Either Jack or Tom *was* there. (singular verb to match Jack (singular) or Tom (singular))

Either Jack or his brothers *were* there. (plural verb to match 'brothers' (plural) which is closer to it than 'Jack' (singular))

Either his brothers or Jack *was* there. (singular verb this time because 'Jack' (singular) is closer to the verb than 'brothers')

- (ii) Be careful to place each part of the 'either...or' construction correctly.

X I have decided either that I have to build an extension or I have to move.

✓ I have decided that either I have to build an extension or I have to move.

In the example above, there are these two possibilities:

I have to build an extension.

I have to move.

'Either' precedes the first one and 'or' precedes the second.

The second one could be shortened:

I have decided that either I have to build an extension or (I have to) move.

- ✓ I have decided that either I have to build an extension or move.

It is important that the two constructions following 'either' and 'or' should be parallel ones:

either meat or fish

either green or red

either to love or to hate

either with malice or with kindness.

If the second construction is shortened to avoid repetition, this is fine. The missing words are obvious and can be supplied readily.

(*not* expedition)

The second syllable is derived from the Latin word *pes, pedis* (foot, of the foot). This may help you to remember -ped-. The words pedal, pedestrian, pedometer all come from this same Latin root.

expendable

(*not* -ible)

expense

expensive

experience

(*not* expierience, *not* -ance)

The second syllable is derived from the Latin word *per*, meaning through. (Experience is what we gain from going 'through' something.)

family (singular) **families** (plural)

(*not* -mm-)

farther or further?

Both words can be used to refer to physical distance although some writers prefer to keep 'farther' for this purpose.

I can walk **FARTHER** than you.

I can walk **FURTHER** than you.

FURTHER is used in a figurative sense:

Nothing was **FURTHER** from my mind.

FURTHER is also used in certain expressions:

FURTHER education
until **FURTHER** notice

fascinate
(*not* facinate)

favourite
(*not* -ate)

feasible
(*not* -able)

February
Notice the word has four syllables and not three as it is often mispronounced.

fewer or less?
FEWER is the comparative form of 'few'.
It is used with plural nouns:

FEWER vegetables
FEWER responsibilities
FEWER children

LESS is the comparative form of 'little'.
It is used in the sense of 'a small amount' rather than 'a fewer number of':

LESS enthusiasm
LESS sugar
LESS petrol

LESS THAN is used with number alone, and expressions of time and distance:

LESS THAN a thousand
LESS THAN ten seconds
LESS THAN four miles

It is considered incorrect to use 'less' instead of 'fewer' although such confusion is frequent in popular speech.

As a rule of thumb, remember:

FEWER = not so many

LESS = not so much

fiancé or fiancée?

FIANCÉ = masculine

FIANCÉE = feminine

Note the accent in both words.

fictional or fictitious?

FICTIONAL = invented for the purpose of fiction,
related to fiction

FICTIONAL texts

FICTIONAL writing

FICTITIOUS = false, not true

historic or historical?

HISTORIC means famous in history, memorable, or likely to go down in recorded history:

a **HISTORIC** meeting

HISTORICAL means existing in the past or representing something that could have happened in the past:

a **HISTORICAL** novel

a **HISTORICAL** fact

Note It would not be wrong to say or write *an* historic meeting, *an* historical novel, *an* historical fact. However, this usage of *an* before words like hotel, historic and historical is becoming much less common, now that the h beginning these words is usually voiced.

hoard or horde?

To **HOARD** is to save something in a secret place.

A **HOARD** is a secret store.

A **HORDE** is a large group of people, insects or animals.

hyper- or hypo-?

The prefix 'hyper' comes from a Greek word meaning 'over', 'beyond'. Hence we have words like these:

hyperactive (= abnormally active)

hypermarket (= a very large self-service store)

hypersensitive (= unusually sensitive)

The prefix 'hypo' comes from a Greek word meaning 'under'. Hence we have words like these:

hypochondria (the melancholy associated with obsession with one's health was originally believed to originate in the organs beneath the ribs)

hypodermic (= under the skin)

hypercritical or hypocritical?

HYPERCRITICAL = excessively critical

HYPOCRITICAL = disguising one's true nature under a pretence of being better than one really is
See **HYPER-** OR **HYPO-**?

hyperthermia or hypothermia?

hyperventilate or hypoventilate

HYPERVENTILATE = to breathe at an abnormally rapid rate

HYPOVENTILATE = to breathe at an abnormally slow rate

See **HYPER-** OR **HYPO-**?

hyphens

- (i) Hyphens are used to indicate word-breaks where there is not space to complete a word at the end of a line.

Take care to divide the word at an appropriate point between syllables so that your reader is not confused and can continue smoothly from the first part of the word to the second part.

There are dictionaries of hyphenation available that will indicate sensible places to break words. They don't always agree with each other! You will also notice a difference in practice between British English and American English.

Increasingly, however, the trend is towards American English practice, i.e. being guided by the way the word is pronounced. Break the word in such a way as to preserve the overall pronunciation as far as possible. It is really a matter of common sense. For this reason you will avoid breaking:

father	into	fat-her
legend	into	leg-end
therapist	into	the-rapist
manslaughter	into	mans-laughter
notable	into	not-able
		and so on!

Note: that the hyphen should be placed at the end of the first line (to indicate that the word is to be continued). It is not repeated at the beginning of the next.

The children shouted enthusias-
tically as they raced towards the sea.

If you are breaking a word that is already hyphenated, break it at the existing hyphen:

Both my parents are extremely absent-
minded.

Breaking a word always makes it look temporarily unfamiliar. You will notice that in printed books for very young readers word-breaks are always carefully avoided. Ideally, you also will try to avoid them. Anticipate how much space a word requires at the end of a line and start a new line if necessary. Whatever happens, avoid breaking a word very close to its beginning or its end, and never break a one-syllabled word.

- (ii) Hyphens are used to join compound numbers between 21 and 99:

twenty-one	twenty-five
fifty-five	fifty-fifth
ninety-nine	ninety-ninth

Hyphens are also used to join fractions when they are written as words:

three-quarters
five-ninths

- (iii) Hyphens are used to join compound words so that they become one word:

my son-in-law
a twenty-pound note
her happy-go-lucky smile

You will sometimes need to check in a dictionary whether a word is hyphenated or not. Sometimes words written separately in a ten-year-old dictionary will be hyphenated in a more modern one; sometimes words hyphenated in an older dictionary will now be written as one word.

Is it washing machine or washing-machine,
wash-basin or washbasin, print-out or printout?

Such words need to be checked individually.

- (iv) Hyphens are used with some prefixes:

co-author, ex-wife, anti-censorship

Check individual words in a dictionary if you are in doubt.

Always use a hyphen when you are using a prefix before a word that begins with a capital letter:

pro-British, anti-Christian, un-American

Sometimes a hyphen is used for the sake of clarity. There is a difference in meaning between the words in these pairs:

re-cover and recover
re-form and reform
co-respondent and correspondent

- (v) Hyphens are also used to indicate a range of figures or dates:

There were 12 - 20 people in the room.
He was killed in the 1914 - 18 war.

I/me/myself

These three words are pronouns and cause a great deal of confusion.

- (i) Most people use the pronoun 'I' correctly when it is used on its own:

I love cats.

I like chocolate.

I mow the lawn every Sunday.

I am trying to lose weight.

I have two sisters.

Confusion generally arises with phrases like 'my husband and I' and 'my husband and me'. Which should it be?

The simplest method is to break the sentence into two and see whether 'I' or 'me' sounds right:

My husband likes chocolate.

I like chocolate.

MY HUSBAND AND I like chocolate.

- (ii) Most people use the pronoun 'me' correctly when it is used on its own:

The burglar threatened **ME**.

It was given to **ME**.

Once again confusion arises when a pair is involved. The advice remains the same. Break the sentence into two and see whether 'I' or 'me' sounds right:

The burglar threatened my husband.

The burglar threatened **ME**.

The burglar threatened **MY HUSBAND AND ME**.

It was given to my husband.

It was given to **ME**.

It was given to **MY HUSBAND AND ME**.

(iii) The pronoun 'myself' has two distinct functions.

- ◆ It can be used in constructions like this where it is essential to the sense:

I cut **MYSELF** yesterday.

I did it by **MYSELF**.

- ◆ It can be used to help emphasise a point. In these cases, it can be omitted without changing the overall sense:

I'll wrap the parcel **MYSELF**.

MYSELF, I would disagree.

'Myself' should never be used as a substitute for 'I' or 'me'.

- ✗ My friend and myself had a wonderful time in Austria.
- ✓ My friend and I had a wonderful time.
- ✗ They presented my brother and myself with a silver cup.
- ✓ They presented my brother and me with a silver cup.
- ✗ This is from Henry and myself.
- ✓ This is from Henry and me.

-ible

See **-ABLE/-IBLE**.

idea or ideal?

Bristolians have particular difficulty distinguishing between these two because of the intrusive Bristol 'I'. These exemplar sentences should help:

Use **INDEXES** to refer to alphabetical lists of references in books.

Use **INDICES** in mathematical, economic and technical contexts.

indirect speech/reported speech

Unlike direct speech where the words actually spoken are enclosed within inverted commas, indirect speech requires no inverted commas.

Direct: 'I am exhausted,' said Sheila.

Indirect: Sheila said that she was exhausted.

Note how direct questions and commands become straightforward statements when they are reported in indirect speech. A full stop at the end is sufficient.

Direct: 'What is your name?' Mr Brown asked the new boy.

Indirect: Mr Brown asked the new boy his name.

Direct: 'Fire!' commanded the officer.

Indirect: The officer commanded his men to fire.

inverted commas

Inverted commas can be double (“ ”) or single (‘ ’). Use whichever you wish as long as you are consistent. In print, single inverted commas are generally used; in handwriting, double inverted commas are frequently used for enclosing direct speech and single inverted commas for enclosing titles and quotations. There are no hard-and-fast rules.

Direct speech

Inverted commas should enclose the actual words of speech that are being quoted.

‘You are very welcome,’ she said.

She said, ‘You are very welcome.’

‘You are,’ she said, ‘very welcome.’

Note the punctuation conventions in the sentences above. These will be examined more closely now.

◆ Speech first and narrative second.

‘You are very welcome,’ she said.

‘Are you tired?’ she asked.

‘Not at all!’ he exclaimed.

Notice that the appropriate punctuation is enclosed with the words spoken.

Note that the narrative continues with an initial small letter: she/he.

◆ Narrative first and speech second.

Brian said, 'You're very late.'

Brian asked, 'What kept you?'

Sarah snapped, 'Don't cross-question me!'

Notice that a comma always divides the narrative from the direct speech.

Note that the direct speech always begins with a capital letter.

Note that the appropriate punctuation mark is enclosed within the inverted commas with the words spoken and no further end stop is required.

◆ Speech interrupted by narrative.

'We have all been hoping,' said my mother, 'that you will join us on Christmas Day.'

Note that the two parts of the interrupted spoken sentence are enclosed by inverted commas.

Note that a comma (within the inverted commas) marks the break between speech and narrative, and that another comma (after the narrative and before the second set of inverted commas) marks the resumption of the direct speech.

Note that the interrupted sentence of speech is resumed without the need for a capital letter.

◆ Longer speeches and the layout of dialogue.

'I should love to join you on Christmas Day,' said Sean.

The children were ecstatic. They cried together, 'That's wonderful!'

'Indeed it is,' said my mother. 'When will you be able to get to us?'

'By 10 o'clock.'

'Really? That's splendid!'

The rule is 'a new line for a new speaker' even if the speech is only a word or two. In addition, each new speech should ideally be indented a little to make it easier for the reader to follow the cut and thrust of dialogue.

Note how a speech of two or more sentences is punctuated.

'Indeed it is,' said my mother. 'When will you be able to get to us?'

If this were lengthened further, the close of the second pair of inverted commas would be delayed accordingly:

'Indeed it is,' said my mother. 'When will you be able to get to us? Need I say "the earlier the better"? You know that we'll be up at the crack of dawn.'

- ◆ Inverted commas are used to enclose titles.

Have you read 'Angela's Ashes' by Frank McCourt?

Alternatively, the title can be underlined or, in print, italicised. Inverted commas will not then be needed.

- ◆ Inverted commas are used to enclose quotations.

Like Coriolanus, I often feel that 'there is a life elsewhere'.

Note that the final full stop comes outside the inverted commas enclosing the quotation. Incorporating a quotation in a sentence is different from punctuating direct speech.

irony or sarcasm?

IRONY is subtle, amusing, often witty.

SARCASM is deliberately hurtful and intentionally cruel.

Irony comes from a Greek word meaning 'pretended ignorance'. Sarcasm comes from a Greek word meaning 'to tear the flesh with one's teeth'.

Irony relies on those with insight realising that what is said is the opposite of what is meant.

Mr Bennet in Jane Austen's *Pride and Prejudice* frequently makes ironical remarks which only his more perceptive listeners will understand. When he tells one of his less musical daughters that she has delighted the company with her piano playing for long enough, she takes his remarks at face value. Jane and Elizabeth, two of her sisters, know exactly what he really meant.

Sarcasm sometimes uses this technique of irony and says in a very cutting way (which will be very clearly understood) the opposite of what is really meant.

When a teacher says, 'Brilliant!', to a pupil who fails yet again, he is being sarcastic and ironical at the same time. When a teacher says, 'Have you lost your tongue?' to a pupil, he is being sarcastic.

-ise or -ize?

Most words ending with this suffix can be spelt -ise or -ize in British English. American English is more prescriptive and insists on -ize whenever there is a choice.

House-styles in Britain vary from publisher to publisher and from newspaper to newspaper. (You may have noticed that in this book I favour -ise.)

When making your choice, bear these two points in mind:

- ◆ These nineteen words *have* to be -ise: advertise, advise, apprise, arise, chastise, circumcise, comprise, compromise, despise, devise, disguise, enfranchise, excise, exercise, improvise, revise, supervise, surprise, televise.
- ◆ Only one verb of more than one syllable has to be -ize: capsize.
(One syllabled verbs like 'seize' still need care, of course.)

Whatever you decide, be consistent within one piece of writing and be consistent with derivatives. If you

use 'realize' in one paragraph, you must use 'realization' and not 'realisation' at another point in the same piece. If you use 'sympathize', then you must refer to 'sympathizers' and not to 'sympathisers' elsewhere.

Many authorities prefer to use -ize when there is a choice. In practice, many writers prefer to use -ise because this choice is relatively trouble-free.

The decision is yours!

isn't

Place the apostrophe carefully. (*not* is'nt)

itinerary

(five syllables, not four as it is often mispronounced and misspelt)

its or it's?

ITS is a possessive adjective like 'her' and 'his':

The book has lost **ITS** cover.

ITS beauty has faded.

IT'S is a contraction of 'it is' or 'it has':

IT'S very cold today. (= it is)

IT'S been a long winter. (= it has)

If you are ever in doubt, see if you can expand 'its/it's' to 'it is' or 'it has'. If you can, you need an apostrophe. If you can't, you don't.

Remember too that contractions like 'it's' are fine in informal contexts but should be avoided in formal writing. When it's inappropriate to use slang, it is inappropriate to use these contractions. You have to write the forms in full.

Use these exemplar sentences as a guide:

It was believed that he had been murdered but **NO BODY** was ever found, and so nothing could be proved. (= no corpse)

NOBODY likes going to the dentist. (= no one)

none

The problem with 'none' is deciding whether to use with it a singular or a plural verb.

Strictly speaking, a singular verb should accompany 'none':

NONE of the passengers **WAS** hurt. (= not one)

NONE of the milk **WAS** spilt. (= not any)

Colloquially, a plural verb is often used when plural nouns follow the 'none of...' construction:

NONE of the passengers **WERE** hurt.

NONE of my friends **LIKE** pop music.

NONE of the children **WANT** an ice-cream.

Some reserve plural verbs in these cases for informal occasions; others would see them as perfectly acceptable formally as well.

no one

'No one' is singular and requires a singular verb:

NO ONE likes meanness.

'No one' should be written as two words and not hyphenated.

Both spellings are correct.

Note: for informal use only.

✓ Denise enjoys **NOT ONLY** composing **BUT ALSO** conducting.

Compare **BOTH...AND; EITHER...OR; NEITHER...NOR**.

nouns

There are four kinds of nouns: common, proper, abstract and collective.

- ◆ Take care with the punctuation of *proper nouns*. Because they are the special individual names of people, towns, countries, newspapers, days of the week, businesses, and so on, they require initial capital letters:

Dennis Blakely
Ipswich
Sweden
The Times
Wednesday
Blazing Fireplaces Ltd.

Note that months of the year begin with a capital letter but the seasons generally do not:

April, the spring, but the Spring term.

- ◆ Do not confuse proper and *common nouns*.

boy – common noun

Jake – proper noun (needs initial capital)

There is a certain flexibility in sentences like this:

Bishop Flynn will be arriving at three o'clock.

The bishop/Bishop would like to meet the confirmation candidates before the service begins.

- ◆ *Abstract nouns* are the names of ideas, emotions, states of mind, and so on.

The correct form can sometimes be difficult to remember. Do check in a dictionary when you are uncertain. Abstract nouns can have a huge variety of endings:

optimism, pride, complexity, failure, diffidence, depth, bravery, kindness, excitement, exhilaration, and so on.

Unsophisticated writers often add -ness to an adjective in the hope that it will then be

converted to an abstract noun. Sometimes this works; often it doesn't.

- ◆ *Collective nouns* (audience, flock, herd, congregation) are treated as singular nouns if regarded as a single whole:

The audience **WAS** wildly enthusiastic.

They are treated as plural nouns when regarded as a number of units making up the whole:

The jury **WERE** divided over his guilt.

nucleus (singular) **nuclei** (plural)

number

See **SINGULAR OR PLURAL?**.

numbers

Should numbers be written in figures or in words? In mathematical, scientific, technical and business contexts, figures are used, as you would expect.

The problem arises in straightforward prose (an essay, perhaps, or a short story or a letter).

The rule of thumb is that small numbers are written as words and large numbers are written as figures.

What are small numbers? Some people would say numbers up to ten; others numbers up to twenty; others numbers up to one hundred. If you're not bound by the house-style of a particular organisation, you can make up your own mind. Numbers up to one hundred can be written in one or two words and this is why this particular cut-off point is favoured.

There were eight children at the party.

There were eighty-four/84 people in the audience.

Remember to hyphenate all compound numbers between twenty-one and ninety-nine when they are written as words.

Round numbers over one hundred, like two thousand, five million, and so on, are also usually written in words.

Write dates (21 October 2003) and sums of money (£10.50) and specific measurements (10.5 cm) in figures.

Time can be written in words or figures (three o'clock/3 o'clock) but 24-hour clock times are always written in figures (08.00).

Centuries can be written in words or figures (the 18th century/the eighteenth century).

It is important to be consistent within one piece of writing.

See **AMBIGUITY** (ii).

onnist

Wrong spelling. See **HONEST**.

onto or on to?

There are circumstances when the words must always be written separately. We will consider these first.

- ◆ Always write the words separately if 'to' is part of an infinitive (e.g. to eat, to speak, to be, to watch, etc.):

She drove **ON TO** test the brakes.

As a matter of interest you can double-check the 'separateness' of the two words by separating them further:

She drove **ON** because she wanted **TO** test the brakes.

- ◆ Always write the words separately when 'to' means 'towards':

We cycled **ON TO** Oxford.

Once again, the two words can be further separated:

We cycled **ON** the few remaining miles **TO** Oxford.

- ◆ It is permissible to write 'onto' or 'on to' when you mean 'to a position on':

The acrobat jumped **ONTO** the trapeze.

The acrobat jumped **ON TO** the trapeze.

It should be borne in mind, however, that many careful writers dislike 'onto' and always use 'on to'.

'Onto' is more common in American English but with the cautions expressed above.

paragraphing

There is no mystery about paragraphing although many students find it difficult to know when to end one paragraph and begin another.

A paragraph develops a particular point that is relevant to the overall subject. If you wish to write a letter or an essay that develops five or six points, then each point will have its own paragraph and you will add two more, one by way of an introductory

paragraph and another at the end as a conclusion.

There are no rules about how long a paragraph should be. Some paragraphs, often the introduction or the conclusion, may be a single sentence; other paragraphs may be a page or more long. Too many short paragraphs in succession can be very jerky; too many very long ones can look forbidding. It is best to mix long and short paragraphs, if you can.

You may also find that a paragraph which is becoming very long (a page or more) will benefit from being subdivided. The topic of the paragraph may be more sensibly developed as two or three subsidiary points.

Clear paragraphing is not possible without clear thinking. Think of what you want to say before you begin to write. List the topics or points you want to make in a sensible order. Then develop each one in turn in a separate paragraph.

A paragraph usually contains within it one sentence which sums up its topic. Sometimes the paragraph will begin with this sentence (called a topic sentence) and the rest of the paragraph will elaborate or illustrate the point made. Sometimes the topic sentence occurs during the paragraph. It can be effective, from time to time, to build up to the topic sentence as the last sentence in a paragraph.

Careful writers will try to move smoothly from one paragraph to the next, using link words or phrases such as: on the other hand; however; in conclusion.

In handwriting and in typing, it is usual to mark the beginning of a paragraph either by indenting it by 2cm or so, or by leaving a clear line between paragraphs. The only disadvantage of the latter method is that it is not always clear, when a sentence begins on a new page, whether a new paragraph is also intended.

Compare also the paragraphing of speech.

participles

Participles help to complete some tenses.

Present participles end in -ing:

I am **COOKING**.

They were **WASHING**.

You would have been **CELEBRATING**.

Past participles generally end in -d or -ed but there are many exceptions:

I have **LABOURED**.

You are **AMAZED**.

It was **HEARD**.

We should have been **INFORMED**.

Care needs to be taken with the irregular forms of the past participle. They can be checked with a good dictionary.

to choose chosen

to teach taught

to begin begun

The past participle is the word that completes the construction:

having been . . . ?

Participles can also be used as verbal adjectives (that is, as describing words with a lot of activity suggested):

a **HOWLING** baby

a **DESECRATED** grave

As verbal adjectives, they can begin sentences:

HOWLING loudly, the baby woke everyone up.

DESECRATED with graffiti, the tombstone was a sad sight.

Take care that the verbal adjective describes an appropriate noun or pronoun. A mismatch can result in unintended hilarity.

PENINSULA is a noun meaning a narrow piece of land jutting out from the mainland into the sea. It is derived from two Latin words: *paene* (almost) and *insula* (island).

Have you ever camped on the Lizard **PENINSULA**?

PENINSULAR is an adjective, derived from the noun:

The **PENINSULAR** War (1808–1814) was fought on the Iberian **PENINSULA** between the French and the British.

Note: It may be useful in a quiz to know that the P&O shipping line was in 1837 The Peninsular Steam Navigation Company (it operated between Britain and the Iberian Peninsula). In 1840, when its operation was extended to Egypt, it became the Peninsular and Oriental Steam Navigation Company (hence P&O).

plurals

- (i) Most words form their plural by adding -s:
door doors; word words; bag bags; rainbow rainbows; shop shops; car cars
- (ii) Words ending in a sibilant (a hissing sound) add -es to form their plural. This adds a syllable to their pronunciation and so you can always hear when this has happened:
bus buses; box boxes; fez fezes/fezzes; bench benches; bush bushes; hutch hutches.
- (iii) Words ending in -y are a special case. Look at the letter that precedes the final -y. If the word ends in vowel + y, just add -s to form the plural (vowels: a, e, i, o, u):

day	days
donkey	donkeys
boy	boys
guy	guys

If the word ends in consonant + y, change the y to i, and add -es:

lobby	lobbies
opportunity	opportunities
body	bodies
century	centuries

This rule is well worth learning by heart. There are no exceptions. Remember an easy example as a key like boy/boys.

- (iv) Words ending in -o generally add -s to form the plural:

piano	pianos
banjo	banjos
studio	studios
soprano	sopranos
photo	photos
kimono	kimonos

There are nine exceptions which add -es:

domino	dominoes
echo	echoes
embargo	embargoes
hero	heroes
mosquito	mosquitoes
no	noes
potato	potatoes
tomato	tomatoes
torpedo	torpedoes

About a dozen words can be either -s or -es and so you'll be safe with these. Interestingly, some of these words until recently have required -es

(words like cargo, mango, memento, volcano).
The trend is towards the regular -s ending and
some words are in a transitional stage.

- (v) Words ending in -f and -fe generally add -s to
form the plural:

roof	roofs
cliff	cliffs
handkerchief	handkerchiefs
carafe	carafes
giraffe	giraffes

There are 13 exceptions which end in -ves in the
plural. You can always hear when this is the
case, but here is the complete list for reference:

knife/knives; life/lives; wife/wives; elf/elves;
self/selves; shelf/shelves; calf/calves; half/halves;
leaf/leaves; sheaf/sheaves; thief/thieves;
loaf/loaves; wolf/wolves.

Four words can be either -fs or -ves:

hoofs/hooves; scarfs/scarves; turfs/turves;
wharfs/wharves.

- (vi) Some nouns are quite irregular in the formation
of their plural.

Some words don't change:

aircraft, cannon, bison, cod, deer, sheep, trout

Some have a choice about changing or staying
the same in the plural:

buffalo or buffaloes

Eskimo or Eskimos

Other everyday words have very peculiar plurals
which perhaps we take for granted:

man	men	ox	oxen
woman	women	mouse	mice

child	children	louse	lice
foot	feet	die	dice
goose	geese		

After goose/geese, mongoose/mongoose seems very strange but is correct.

Two problems can arise with prepositions.

- (i) Take care to choose the correct preposition. A good dictionary will help you:

deficient in

ignorant of

similar to, and so on.

- (ii) Don't take too seriously the oft-repeated advice not to end a sentence with a preposition. Use your discretion, and word your sentence however it sounds best to you.

(b) Who are you **WITH**?

shall or will?

The simple future tense uses 'shall' with I and we and 'will' with the other pronouns:

I shall drive
you (singular) will drive
he/she/it will drive
we shall drive
you (plural) will drive
they will drive

By reversing 'shall' and 'will' you introduce a note of determination.

I will drive
you shall drive
he/she/it shall drive
we will drive
you shall drive
they shall drive

This distinction is lost in the contraction: I'll drive. However, in speech, the tone of voice will indicate which is intended.

he/she/it would work
we should work
you (plural) would work
they would work

The correct construction often needed in a formal letter is:

I **SHOULD** be grateful if you **WOULD** send me . . .

In the sense of 'ought to', use 'should' in all cases:

I know I **SHOULD** apologise.

You **SHOULD** write to your parents.

She **SHOULD** understand if you explain.

He **SHOULD** understand.

We **SHOULD** repair the shed.

You all **SHOULD** work harder.

They **SHOULD** resign.

singeing or singing?

singe + ing = singeing

sing + ing = singing

See **SOFT C AND SOFT G**.

singular or plural?

- (i) Always match singular subjects with singular verbs. Always match plural subjects with plural verbs.

The dog (singular) is barking (singular).

The dogs (plural) are barking (plural).

These pronouns are always singular:

everyone, everybody, everything

anyone, anybody, anything

someone, somebody, something

no one, nobody, nothing

either, neither, each

Everybody (singular) loves (singular) a sailor.

Remember that double subjects (compound subjects) are plural.

The Alsatian and the Pekinese (two dogs = plural subject) are barking (plural).

- (ii) 'Either...or' and 'neither...nor' are followed by a singular verb.

Either James or Donal is lying and that's certain.
(singular)

- (iii) The choice between 'there is' (singular) and 'there are' (plural) will depend on what follows.

There is (singular) a good reason (singular) for his bad behaviour.

- (iv) Take care to match nouns and pronouns.

✗ Ask any teacher (singular) and they (plural) will tell you what they (plural) think (plural) about the new curriculum.

✓ Ask any teacher (singular) and he or she (singular) will tell you what he or she (singular) thinks (singular) about the new curriculum.

- (v) Don't be distracted by any additional details attached to the subject.

✗ The variety (singular) of courses available at the colleges were (plural) impressive.

✓ The variety (singular) of courses available at the colleges was (singular) impressive.

✓ The addition (singular) of so many responsibilities makes (singular) the job very stressful.

- (vi) Collective nouns are singular when considered as a whole but plural when considered as combined units.

✗ The audience (singular) was divided (singular) in its (singular) response.

✓ The audience (here seen as a crowd of single people) were divided (plural) in their (plural) response.

sirocco/scirocco

Both spellings are correct.

sit

Don't confuse the grammatical formation of tenses:

We **SIT** by the fire in the evening and relax.

We **ARE SITTING** by the fire now.

We **ARE SEATED** by the fire.

We **HAVE BEEN SITTING** here all evening.

We **HAVE BEEN SEATED** here all evening.

We **SAT** by the fire yesterday.

We **WERE SITTING** by the fire when you phoned.

We **WERE SEATED** by the fire when you phoned.

Never write or say:

X We were sat.

Say **✓** We were sitting/we were seated.

site

See **CITE, SIGHT OR SITE?**.

siting or sitting?

site + ing = siting

sit + ing = sitting

snip + ing = snipping

sobriquet/soubriquet

Both spellings are correct.

social or sociable?

SOCIAL = related to society

a **SOCIAL** worker, a **SOCIAL** problem, **SOCIAL** policy, **SOCIAL** housing

SOCIABLE = friendly

a very **SOCIABLE** person

These two words are quite distinct in meaning even though they may be used with the same noun:

a **SOCIAL** evening = an evening organised for the purpose of recreation

a **SOCIABLE** evening = a friendly evening where

everyone mixed well

With any luck the social evening was also a sociable one!

soft c and soft g

The letter c has two sounds. It can be hard and sound like k or it can be soft and sound like s.

The letter g has two sounds. It can be hard and sound like g in got and it can be soft and sound like j.

Usually, but not always, c and g sound hard when they precede a, o, u:

cat	cot	cut
gap	got	gut

They are generally soft when they precede e and i (and y):

cell	cider	cyberspace
germ	gin	gyrate

Sometimes an extra e is inserted into a word before a, o, u, so that the c or g in the word can sound soft:

noticeable	(<i>not</i> noticable)
manageable	(<i>not</i> managable)

Sometimes an extra k is inserted into a word between c and e, i, y, so that c can sound hard:

picnicker	(<i>not</i> picnicer)
trafficking	(<i>not</i> trafficking)

soldier

Take care with the spelling of this word.
(soldiers of the Queen, not soliders!)

Both spellings are correct.

split infinitive

The infinitive of a verb is made up of two words:

to eat, to speak, to begin, to wonder

If a word (or a group of words) comes between the two words of an infinitive, the infinitive is said to be 'split'.

It is not a serious matter at all!

You may sometimes find it is effective to split an infinitive. Do so. On other occasions to split the infinitive may seem clumsy. Avoid doing so on those occasions. Use your own judgement.

Here are some examples of split infinitives:

to boldly go where no man has gone before

to categorically and emphatically deny any wrongdoing

to sometimes wonder how much will be achieved

They can easily be rewritten:

to go boldly

to deny categorically and emphatically

to wonder sometimes

spoiled/spoilt

Both spellings are correct.

stand

Don't confuse the grammatical formation of tenses.

We **STAND** by the window after breakfast.

We **ARE STANDING** now.

We **HAVE BEEN STANDING** for an hour.

We **STOOD** by the window yesterday.

We **WERE STANDING** there when you called.

Never write or say:

X We were stood.

Say ✓ We were standing.

stationary or stationery?

STATIONARY = standing still (a **STATIONARY** car)

STATIONERY = notepaper and envelopes

stiletto (singular) stilettos (plural)

See **PLURALS** (iv).

stimulant or stimulus?

Both words are related to 'stimulate' but there is a difference in meaning:

A **STIMULANT** is a temporary energiser like drink or drugs.

A **STIMULUS** is something that motivates (like competition).

stimulus (singular) stimuli (plural)

See **FOREIGN PLURALS**.

stomach ache

stood

See **STAND**.

storey (plural storeys) or **story** (plural stories)?

STOREY = one floor or level in a building

A bungalow is a single-**STOREY** structure.

A tower block can have twenty **STOREYS**.

I read a **STORY** each night to my little brother.

Children love **STORIES**.

strategem or strategy?

STRATEGEM = a plot, scheme, sometimes a trick, which will outwit an opponent or overcome a difficulty

STRATEGY = the overall plan for conducting a war or achieving a major objective

strategy or tactics?

STRATEGY = the overall plan or policy for achieving an objective

TACTICS = the procedures necessary to carry out the strategic policy

stratum (singular) **strata** (plural)

See **FOREIGN PLURALS**.

subjunctive

The subjunctive form of the verb is used to express possibilities, recommendations and wishes:

If he **WERE** a gentleman (and he's not) he would apologise on bended knee.

(X If he was a gentleman...)

If I **WERE** rich (and I'm not), I would help you.

(X If I was rich...)

I wish I **WERE** going with you (and sadly I'm not!).

(X I wish I was going with you.)

I recommend that he **BE** sacked immediately.

(X ... he is sacked)

I propose that the treasurer **LEAVE** the room.

(X leaves)

It is vital that these questions **BE** answered.

(X ... are answered)

The subjunctive is also used in these expressions but there is no change to the verb.

God **SAVE** the Queen.

God **BLESS** you.

Heaven **FORBID**.

TESTIMONIAL = formal statement in the form of an open letter bearing witness to someone's character, qualifications and relevant experience

TESTIMONY = formal written or spoken statement of evidence, especially in a court of law

thank you or thank-you?

(never *thankyou!*)

I should like to **THANK YOU** very much for your help.

THANK YOU for your help.

I have written all my **THANK-YOU** letters.

You will see that 'thank you' is NEVER written as one word. It is hyphenated only when used as a compound adjective describing 'letter' or another noun.

Those who care about such things can never bring themselves to buy otherwise attractive thank-you cards that have **THANKYOU** or **THANK-YOU** printed on them!

their, there or they're?

WHISKEY is distilled in Ireland.

WHISKY is distilled in Scotland.

who or whom?

The grammatical distinction is that 'who' is a subject pronoun and 'whom' is an object pronoun.

- (i) Use this method to double-check whether you need a subject pronoun or an object pronoun when who/whom begins a question:

Ask yourself the question and anticipate the answer. If this could be one of the subject pronouns (I, he, she, we or they), then you need 'who' at the beginning of the question:

Who/whom is there?

The answer could be: *I* am there.

- ✓ **WHO** is there?

If the answer could be one of the object pronouns (me, him, her, us or them), then you need 'whom' at the beginning of the question:

Who/whom did you meet when you went to London?

The answer could be: I met *him*.

- ✓ **WHOM** did you meet?

- (ii) Use this method if who/whom comes in the middle of a sentence:

Break the sentence into two sentences and see whether a subject pronoun (I, he, she, we, they) is needed in the second sentence or an object pronoun (me, him, her, us, them).

Here is the man who/whom can help you.

Divide into two sentences:

Here is the man. *He* can help you.

- ✓ Here is the man **WHO** can help you.

He is a writer who/whom I have admired for years.

- ◆ Around the rugged rocks the ragged rascals ran.

climax ◆ I came; I saw; I conquered!

epigram a short pithy saying

- ◆ Truth is never pure, and rarely simple. (Oscar Wilde)

euphemism an indirect way of referring to distressing or unpalatable facts

- ◆ I've *lost* both my parents. (= they've died)
- ◆ She's rather *light-fingered*. (= she's a thief)

hyperbole exaggeration

- ◆ Jack cut his knee rather badly and lost *gallons* of blood.
- ◆ What's for lunch? I'm *starving*.
- ◆ I loved Ophelia. *Forty thousand brothers
Could not, with all their quantity of love,
Make up my sum.* (Shakespeare: 'Hamlet')

irony saying one thing while clearly meaning the opposite

- ◆ For Brutus is an *honourable* man. (Shakespeare: 'Julius Caesar')

litotes understatement

- ◆ He was *not exactly polite*. (= very rude)
- ◆ I am a citizen of *no mean city*. (= St Paul boasting about Tarsus and hence about himself)

metaphor a compressed comparison

- ◆ Anna *flew* downstairs. (i.e. her speed resembled the speed of a bird in flight)
- ◆ Sleep that *knits up the ravelled sleeve of care*. (Shakespeare: 'Macbeth')

APPENDIX B – Parts of speech

Each part of speech has a separate function.

Verbs are 'being' and 'doing' words.

It *seems*.

She *is laughing*.

All the pupils *have tried* hard.

Note also these three verb forms: the infinitive (*to seem*); the present participle (*trying*); the past participle (*spoken*).

Adverbs mainly describe verbs.

He spoke *masterfully*. (= how)

She *often* cries. (= when)

My grandparents live *here*. (= where)

Nouns are names (of objects, people, places, emotions, collections, and so on).

common noun: *table*

proper noun: *Emma*

abstract noun: *friendship*

collective noun: *swarm*

Pronouns take the place of nouns.

He loves me. *This* is *mine*. *Who* cares? *I* do.

Adjectives describe nouns and pronouns.

a *hard* exercise a *noisy* class *red* wine

Conjunctions are joining words.

co-ordinating: fish *and* chips; naughty *but* nice;
now *or* never

subordinating: We trusted him *because* he was
honest.

She'll accept *if* you ask her.

Everyone knows *that* you are doing
your best.

Prepositions show how nouns and pronouns relate to the rest of the sentence.

Put it *in* the box. Phone me *on* Thursday. Give it *to* me. Wait *by* the war memorial. She's the boss *of* Tesco.

Interjections are short exclamations.

Hi! Ouch! Hurray! Ugh! Oh! Shh! Hear, hear!

The articles: definite (*the*)

indefinite (*a; an* – singular; *some* – plural)

APPENDIX C – Planning, drafting and proofreading

Planning

Whenever you have an important essay, letter, report or article to write, it's well worth taking time to work out in advance exactly what you want to say. Consider also the response you hope to get from those who read the finished document and decide on the tone and style which would be most appropriate.

- ◆ Next, jot down, as they come into your head, all the points that you want to include. Don't try to sort them into any order. Brainstorm. (It's better to have too much material at this stage than too little.)
- ◆ Then, read through these jottings critically, rejecting any that no longer seem relevant or helpful.
- ◆ Group related points together. These will form the basis of future paragraphs.
- ◆ Sequence these groups of points into a logical and persuasive order.
- ◆ Decide on an effective introduction and conclusion.

Drafting

Now you are ready to write the first draft.

- ◆ Concentrate on conveying clearly all that you want to say, guided by the structure of your plan.
- ◆ Choose your words with care. Aim at the right level of formality or informality.
- ◆ Put to one side any doubts about spelling, punctuation, grammar or usage. These can be checked later. (If you wish, you can pencil

queries in the margin, or key in a run of question marks – ??????)

- ◆ When you have finished this first draft, read it critically, concentrating initially on content. (It can help to read aloud.) Have you included everything? Is your meaning always clear? Should some points be expanded? Should some be omitted? Have you repeated yourself unnecessarily?
- ◆ Read the amended text again, this time checking that you have maintained the appropriate tone. Make any adjustments that may be needed.
- ◆ Examine the paragraphing. Does each paragraph deal adequately with each topic? Should any paragraphs be expanded? Should any be divided? Should the order be changed? Does each paragraph link easily with the next? Are you happy with the opening and closing paragraphs? (Sometimes they work better when they are reversed.) Should any paragraphs be jettisoned?
- ◆ Are you happy with the layout and the presentation?
- ◆ If you have made a lot of alterations, you may wish to make a neat copy at this stage. Read through again, critically, making any adjustments that you feel necessary. You may find third and fourth drafts are needed if you are working on a really important document. Don't begrudge the time and effort. Much may depend on the outcome.

Proofreading

When you are happy with the content, style and tone, you are ready to proofread. Proofreading means scrutinising the text for spelling, punctuation, grammar, usage and typographical errors.

- ◆ Make yourself read very slowly. Best of all, read aloud. Read sentence by sentence, paragraph by paragraph. Read what is actually there, not what you *meant* to write.
- ◆ Check anything that seems doubtful. Check all the queries you tentatively raised earlier. Don't skimp this vital penultimate stage. Don't rely wholly on a computer spellcheck; it will take you only so far (and, in some cases, introduce errors of its own).
- ◆ If you know you have a particular weakness (spelling, perhaps, or not marking sentence boundaries – commas are not substitutes for full stops!), then devote one read-through exclusively to this special area.
- ◆ When you are satisfied that you have made this important document as good as you possibly can, you are ready to make the final neat version. If, in the process, you make any small errors, don't simply cross them out and don't use correction fluid. Rewrite. When the last word is written, you can be satisfied that you have done your very best. Good luck!

Note: If you have a form to fill in, it is well worth making a few photocopies before you start. Practise what you want to say on the photocopies. Fit what you want to say carefully in the space available. Then complete the original form. It's well worth the extra time taken.
